

entered at the Postoffice at Accomac, C. H., Va., as second-class matter.

The premium list of Twelfth Annual Fair of the Eastern Shore Agricultural Association, published in our columns, is worthy the attention of all our readers, but commended especially for careful perusal to the people of Accomac and Northampton counties. The farmer, mechanic, housekeeper, manufacturer—all classes of our citizens in fact, in whatever industry engaged, have an interest in its success, and should render tribute thereto. From farm and garden, factory and workshop, household and kitchen—through every avenue of trade and from every department of industry local to us, contributions should come, and the offerings should be made not grudgingly but freely and fully, at this gathering of our brotherhood of farmers and other industrial classes. Our offerings should, of course be the best we have, but selected, we have to suggest, without making the inquiry whether or not our neighbors have something better. Variety and quantity contribute as much to the success of a Fair as does the quality of the exhibits, and no other price need be offered of the truth of the assertion, than to remind our readers in attendance at our Fair last year of the miserable failure of the agricultural department. That the exhibits in that department were very fine to one will deny, but the dearth of them provoked only a smile of contempt from visitors to us, and caused everyone who had an interest in his county to hang his head in shame. On the other hand all can remember with what pleasure they turned to the ladies department where every inch of space was filled with articles of usefulness or beauty, wrought by fair hands. In the one department the motive which prompted the exhibit seems only to have been mercenary, while in the other duty only seems to have inspired the offering. That our people should be actuated by the latter motive, of course we believe, if they would make our Fair a success, and we appeal to them to carry such as they have to our next Fair without stint and with the desire to secure the premiums only as the articles on exhibit merit such recognition.

The Virginia Agricultural Convention, which met at Lynchburg, last Wednesday, nominated a full State ticket and adopted a strong platform. Thomas E. Taylor, of Loudoun, was nominated for Governor, Capt. W. J. Sheibourne, of Montgomery, for Lieutenant-Governor, and Judge J. M. Quarles, of Staunton, for Attorney General. The latter is a Republican, but heretofore have been staunch Democrats. Only twenty-five delegates were in attendance.

The following platform was adopted: First. That the manufacture, importation, transportation and sale of alcoholic beverages shall be made public crimes, and prohibited and punished as such. Second. That it is the policy of the prohibition party to make nominations for all offices in all local, State and national elections in the future.

Third. We declare our opposition to all trusts and monopolies which compel our people to pay exorbitant prices for the necessities of life. Fourth. That we favor the use of all proper means to advance the cause of public education. Fifth. That we favor the strict observance of the Lord's day of rest. Sixth. That men who sell their votes and men who directly or indirectly buy votes or corrupt votes should be disfranchised and forever prevented from exercising the right of suffrage. Seventh. We invite all citizens, however they may differ upon other questions, who are agreed upon the wisdom and necessity of separate political action in order to secure the overthrow of the power, to unite with us.

The Winchester Times aptly remarks: "The delegates chosen to the State Convention to be held in Richmond in August should be selected not only instructed, but untrammelled by pledges. Of the two forms of securing delegations, tied to the fortunes of a particular candidate, the open instructions of a convention is to be preferred to the secret pledge to the individual, but neither should be permitted to the coming convention."

A large meeting of colored Republicans held in Petersburg, Friday of last week, was addressed by John M. Langston, colored. He spoke at considerable length on the tyrannical methods and the discussions in the Republican party in the State. The meeting was decidedly anti-Mahone in sentiment.

Superintendent Mills, of the Delaware Railroad Company, says the peach crop will number exactly 2,798,230 baskets.

Mahone for Governor.

RICHMOND, VA., July 12.—Republicans who have returned here from Mahone's Petersburg conference are confident that the latter will be the nominee of his party for Governor this year. That matter, they say, was practically settled at Petersburg. Mahone's admirers declare that as the nominee of his party for Governor he can poll more votes than any other man they can select. In the event of the General's making the race, they say, they count upon having the full support of the Harrison administration, and all the aid that the judicious bestowal of federal patronage in the State can afford. Indeed at least one of those who participated in Mahone's conference did not hesitate to intimate that the hope that Mahone's nomination for Governor would secure for him an uninterrupted pull on the patronage had much to do with the desire of his followers to see him make the race. The selection of the place for holding the Republican State Convention was left by the committee to a sub-committee. The impression seems to be that Roonke has been practically determined on. The controlling reasons for selecting that place seems to be because it is in the heart of the mining region and seat of extensive industrial enterprises, which will exert an influence upon the platform of the convention. Another reason for selecting the Southwest probably is, it is remote from the great negro district, and will thus prevent any element from having too much influence upon the convention. In other words, Mahone's idea seems to be to organize his convention and plan its action to accord with the Harrison policy of forming a protective tariff party in the South.—Baltimore Sun.

Interesting Coupon Decision.

In our report of the Corporation Court on Friday was briefly stated that in the case of the Commonwealth against C. T. Plunkett, the demurrer was overruled. This was an indictment against Plunkett for dealing in coupons as a broker without paying the license of \$1,000 prescribed by the State Legislature. The demurrer was upon the ground that the funding act created a contract between the State and the holders of its bonds and the coupons attached, and that the license tax of a thousand dollars amounted to taxing the coupons out of existence, therefore violating that provision of the obligation of a contract. The court held the license tax to be legitimate and overruled the demurrer. The case was thereupon submitted to the jury and fully argued. The act of Assembly imposes a fine of from five hundred to two thousand dollars upon any one dealing in coupons without a license. The jury brought in a verdict against Mr. Plunkett for two thousand dollars. Mr. Plunkett moved for a new trial with the view of filing a bill of exceptions in order to take the case to the Virginia Court of Appeals, his intention being in the event of an adverse decision there to endeavor to get the case into the United States Supreme Court upon the ground that it involves a constitutional question.—Lynchburg Virginian.

The gubernatorial Contest.

The following is furnished for publication by a warm friend of Col. O'Ferrall: "A full and correctly prepared list of delegates chosen up to the 12th instant to the gubernatorial Convention, embracing twenty-two counties situated in the first, second, third, fourth, fifth, sixth, seventh, ninth and tenth Congressional District, from the most reliable sources, shows the following results: O'Ferrall, 106; McKinney, 91; Beirne, 37; unknown, 30. This does not include Northumberland county, reported as instructed for Beirne."—Norfolk Ledger.

Up to this time it is claimed that 426 delegates have been elected in the State. There are various estimates of how these are divided among the various candidates for Governor. It is impossible to make a fair estimate; indeed, none can be made without doing gross injustice to some of the leading candidates. From a casual examination of the lists it appears that Beirne, McKinney and O'Ferrall are quite close together thus far.—Cor. Norfolk Ledger July 17th.

The contest for delegates to the gubernatorial convention in Augusta county resulted in the choice of delegates who favor John T. Harris, of Rockingham county, in Staunton, and four out of the six county districts, two yet to be heard from. The defeated candidates were for Richard Beirne, of Richmond.

Prince George county has elected delegates to the State Convention. While they go unpledged, yet resolutions were adopted at the meeting expressing their favor of Mr. S. W. Venable, of Petersburg, for Governor.

The Democrats of Dinwiddie county have elected delegates to the State Convention, and passed a resolution endorsing Captain S. W. Venable for the Governorship.

Harover county has elected Beirne delegates and Augusta county Harris delegates to the Democratic State Convention.

CONCORD HOUSE.

CONCORD WHARF, VA.
Offers to its patrons Good Fishing, Boating, Bathing, Comfortable and Well Furnished Rooms, and Good Board.
Terms—\$1.50 per day, \$7 per week.
